

SECURE “E-SIGN ANYTHING”

CloseSimple eSigning offers an easy way to capture eSigning on forms (such as seller payoff authorizations) and standard documents. eSigning is available inside the Collaboration Portal, and delivered to clients via a task. Tasks also include auto-reminders that are delivered until documents are signed.

- **Easily Managed:** Forms for eSigning can be configured and managed utilizing the CloseSimple CMS

- **Reminders** are sent every 48 hours for 10 days, or until signed
- **Direct integration:** Once signing is complete the signed form, completion certificate and a copy of the eSign agreement are uploaded to the Title Production Software and made available in user's portal.
- **Configurable notifications:** Internal teams are also notified via email as soon as documents are signed
